The first of these vessels, the Helen Mar, pleasant retrospect, and promises an auspicious will I due the latter part of July, and the others will follow future for our people. This journal was established and has been Sugar is accumulating and meets no inquiry for export under depressing advices from San Francisco. The Comet will conducted to represent the liberal or conservatake a quantity on plantation account. We can give no fair tive views of the foreign community, avoiding

as much as possible an ultra or radical position

on any question. How well it has succeeded,

may best be inferred from the fact that, not-

withstanding the general decline in business,

and perhaps in our foreign population, there

has never been a time when it enjoyed a larger

patronage than at present. It is no easy task

to conduct a paper successfully, even under the

most favorable circumstances; much less in a

community made up of such varied sentiments

as the foreign population of this group, which

is brought together from every quarter of the

globe, and imbued with the most dissimilar

ideas. To please all is next to impossible, and

to speak the truth without offending some, is

equally difficult. This same difficulty exists in

every part of the world. On this point, an

American exchange has the following pertinent

Next to poverty, delinquent subscribers, and duns, to which

For so great is the variety of public taste and feeling,

most editors are subject, the greatest difficulty is to please the

that had the conductor of a periodical paper as many heads and as many pens as his paper has readers, he could never hope

to please all; for they cannot please themselves. Does he speak out in language plain and simple? It is mere common-place;

vulgar. Does he aspire to elegance? The unlearned cannot

understand; and the learned regard him as a pedantic fellow, dabbling in what he has no pretensions to. Does he show his

If he hides himself beneath a mass of equivocal matter, he is temporizing. If he publishes extracts better than he can write,

he has no talent of his own to display; and if he fills his paper

with original matter, he might have given something better from

and uninteresting; and if he writes on plain and familiar sub-

jects, everybody knew them before. Does he attempt to instruct? He needs to be instructed. Does he use his endeavors to amuse? It is light and triffing.

suppose this might satisfy, but let an editor try the experiment, and he soon will find out his mistake. For such is the power of

envy, that no one will thank him for praising him, and every-

body will hate him for praising others. Some people are fond

of hearing their neighbors slandered; but if you attempt to

oint out either the vice or follies of mankind, every one will

ounter the whole mass. Every person can tell you how to

find something applicable to himself; and here again you en-

conduct a paper to please him; and of course to offend every

one else. These being stubborn facts, there is no alternative

but for an editor to please himself if he can, and hazard the

consequence. If he does this he will be certain of satisfying one, which is more than he can say if he tries to please all."

Not long since, there was a dinner given by

the publishers in Berlin, Germany, at which

some two hundred editors and authors were

present. Among such a number of men devoted

to the press, there must have been much said

worthy of note. The speech of Victor Hugo,

who was present, and who is both an editor

and author, contained a warm eulogy of the

Gentlemen, the Press is the daylight of the world, and in all

daylight there is something divine. Thought is more than a right—it is the very breath of man. Whoever fetters thought

attacks man himself. To speak, to write, to publish, are things,

so far as the right is concerned, absolutely identical. They are the ever enlarging circles of intelligence in action; they are the

sonorous waves of thought. Of all these circles-all these radi-

ances of the human mind-the vastest is the Press. The diam-

eter of the Press is the diameter of civilization. Every d minu-

tion of the liberty of the Press is followed by a diminution o

fered with, there we see the outrition of the human family inter-

rupted. Gentlemen, the mission of our days is to change the

where truths for fictions. In this displacement of social founda-tions, which is the colossal labor of an age, nothing resists the

power of the Press, applying its tractile force to Catholicism

to soldierism, to absolutism, to the most refractory block of facts and of ideas. The Press is

the living clarion-it sounds the reveille of the races, it an-

nounces aloud the dawn of right, it divines the coming day and

To-day, there are certain questions which are really the ques-ions of the century, and which stand here before us, inevita-

ble! There is no middle course. We must dash ourselves

upon them, or seek refuge in them. Society is sailing irresisti-

bly in that direction. These questions are the theme of the

painful book of which you have just spoken so magnificently

Pauperism, parasitism, the production and distribution of wealth, money, credit, labor, wages; the extinction of proleta-

rianism, the progressive decrease of crime, misery and prosti-

tution; the rights of women, which are to elevate half the

human family from a state of tutelage; the rights of childhood,

which exact-I repeat, which exact gratuitous and obligatory

education-the rights of the soul, which imply religious liberty

Here are the problems. With a free press there is light above

these questions; they become practicable. We see their preci

pices and their openings; we can approach them, penetrate

them. Once approached and penetrated—that is to say, solved,

they will save the world. Without the press we shall have pro-

found darkness; every problem becomes at once formidable, nothing but their vast cliffs can be discerned; the entrance may

well be missed, and society go down in shipwreck. Destroy the light house, and the port becomes a reef!"

paper which shall be a medium of public

thought as free from censure as is possible.

Perfection is out of the question, and to please

all, we cannot expect. But as heretofore, we

shall persevere in pursuing what we believe to

be a right course, confident that in the end

such a course will meet public confidence. The

aim and influence of this paper has ever been

on the side of right, justice and truth; and

The Post-Office.

KAUA to be Postmaster General, vice Mr. A. K.

Clark resigned. Mr. K. is a native Hawaiian,

well versed in the English language, and has

served as assistant clerk in the Interior Depart-

ment for several years, where he gave entire

satisfaction. His promotion to a more respon-

sible position, evinces a desire on the part of

the government to bring forward natives to fill

its public offices-a policy which this paper has

always contended for, and which is calculated to

improve the people and strengthen the govern-

ment. There are some of the more important

public offices, which do now and may always

require the services of the most accomplished

foreigners whom the government can obtain.

But that is no reason why foreigners should be

called in to fill all the positions of trust, especial-

ly when some of them possess very little fitness

for the place. In this way, some of our lower

judgeships have been filled by foreigners, who

are entirely ignorant of law, and probably never

read a page of Blackstone or Kent, till after

their appointment, who know nothing of the

vernacular, and are perfectly incapable of

such we trust it will always be.

Our object has always been to supply a news-

ses of society, to create a real order, and to substitute every-

lization. Wherever we see the freedom of the Press inter-

· People generally are fond of being praised, and one would

the works of others. If he attempts to philosophize, it is dull

and boldly contend for his ground? He is too severe

along in August, September and October.

between seven and eight thousand dollars, was taken up by bids at from 26 to 36 per cent. discount-an average of 314. Salary rafts, payable in specie, were taken up at par. The U.S. Commissioner's drafts, also payable in specie, were taken at 41 per cent. discount.

COMMUNICIAL PREMS. ADVERTISING .- The first two verses of the first chapter of the Chronicles of Euccess, read thus:

"Who hath sadness? Who hath woe? Who "shinnest" the street with gloom of countenance and perplexity of mind? Who loseth confidence and patronage, and sinketh into poverty and forgetfulness? HE THAT ADVERTISETH NOT—He that doth not make himself known through the papers. He who, by his negligence in this matter, depriveth himself of gain and secureth to himself loss! His business wisdom is foolishness. His lack of knowledge, yea, his stinginess, sticketh out, and the discerning shun him. Who hath gladness? Who hath joy? Who hath a growing business and full coffers? Who payeth his notes promptly? Who gaineth the confidence and patronnge of men. and riseth to affluence? HE THAT ADVER-TISETH LIBERALLY—that through the journals of the day ma-keth himself and his business known! He hath chosen the part of wisdom, and his riches and honor increase like light of the morning. His shadow growath broad. His complacency increaseth. His fame extendeth. His happiness endureth, and he is honored and blessed of all men-particularly by printers. So mote it be !

#### How to Succeed in Business

Richard's rules were: . Cut short your losses 2. Let your profits run on.

In order to do this, one must have experience-and to avoid a too costly experience, begin small. Feel your way. Bonaparte had a quick and powerful mind; we may learn from him, observing to do good with our knowledge, instead of evil, as he When in Egypt, he and many of his officers were riding out in a dark evening on the sea-beach where it was very wide. Suddenly the tide came in rapidly, and the water grew every moment deeper where their horses stood; they could not see which way was dry land, they became alarmed and bewildered, and destruction threatened them. Bonaparte seemed never to fail for an expedient. He ordered all to form a circle, with horses' heads outwards. They did so. He now ordered all to ride ahead; if any one found the water growing deeper, they were to turn about: if any found it growing shallower, they were to ride on, and all the rest to follow. This brought them to dry land. It is so with business. Proceed cautiously in differ-ent directions; if fail-re results, wheel about; if success attends, go ahead. This is ne way to carry out Richard's rules, "Cut short your losses - A your profits run on."

#### Ships' Mails.

PRINCEVILLE .- This sugar estate is said to be working admirably, and turning out a larger yield than was antic pated, averaging thus far about two tons to the acre. His Excellency the worthy propriefor is, we hear, (unofficially of course,) perfectly charmed with his new labors, and it is feared will look down with cold contempt on the stale routine of foreign office. He will probably not return to

du till August. beautiful ranch of Capt. H. S. Howwindward side of this island, and e, has been purchased by our townsherty, Esq., for the purpose of estatplantation. It is one of the most localities on this group.

acquiring it. In such and other minor offices of the government, we are in favor of promoting the native element, as rapidly as the proper qialifications are shown. Where a Hawaiian is found capable of filling any office, with a snow of satisfaction, the government ought to promote him, to develope his talents, and to inspire an ambition to serve with credit. It is only in this way that the Hawaiians can ever expect to become a truly independent and self-governing people. Another strong argument in favor of employing native officers, is the economy that may be practised. Most of the salaries are based on the employment of foreigners; but if Hawaiians are employed, a considerable reduction

Some may say that as foreigners contribute a majority of the income of the government, therefore they should also fill a majority of the public offices. This argument certainly has some weight, especially in positions here in the metropolis where the greater part of the business is transacted with foreigners and in a foreign language. But it does not hold with so mich force in the rural districts, where the chief intercourse is in the native tongue. While it is proper to require that foreign office-holders should be conversant with the vernacular as a prime qualification for office, it is equally important that native office-holders should be familiar with the English tongue, which will enable both to serve in the highest degree the interests of the king and people.

We doubt not that the public will look favorably on the appointment of Mr. Kalakaua, and give him every opportunity to acquire the dusies of his new office, so that he may perform them with credit. With a gentlemanly and accommodating assistant as he now has, he will have a good opportunity to do so. It has been intimated that the appointment may be only a temporary one, but we see no reason why it should not be permanent, if Mr. K. proves himself to be qualified for the duties of Postmaster-General. At all events, he should have a fair chance to show his qualifications. He yesterday entered on the duties of his office.

There exist everywhere some very suspicious, tender-souled mortals, of whom the editor of the Polynesian is the most notable example among us. In alluding last week to the resignation of the late Postmaster, taking it for granted that the office was vacant, which appears was not strictly correct, we said that the incumbent (the successor of course intended) should be a man of unimpeachable qualities and in every respect qualified for the position. Our neighbor, in his characteristic style of perversion of facts, construes what was said as applying to the late incumbent. Nothing of the kind was intended, and only the most impertinent and ungenerous could give our remarks any such construction. When the editor of the Polynesian undertakes to comment, it would be well if he adhered to facts as stated and to the truth.

- Some have supposed, that because we occasionally have censured public officers, we were necessarily inspired with personal animosity in so doing. Such is not the case, as we have before had occasion to remark. The position we occupy as the conductor of the only medium through which the public can utter its grievances against public officers, high or low, compels us often involuntarily to assume a position of apparent animosity against those censured, when the truth is that personally we have nothing against them. So in respect to the Postmaster-we have been compelled to give utterance to complaints against his official transactions, while personally we never have nor do we now entertain animosity. And the same remark we wish to apply to other government officers, whom we have had occasion to censure, that no strictures that we have ever made on their official doings, have been prompted by

- In this connection we may state that Mr. Clark has received from the Minister of the Interior a very courteous response to his resignation, expressing satisfaction with him as an officer in every respect, and regretting that he intended to leave the kingdom.

### Hospital Affairs.

We insert below the report of the Treasurer of the Queen's Hospital, which was placed at our disposal too late for insertion in last week's issue. It shows that the annual expense of supporting this institution is now about \$7,000. For this, some stated and ample provision should be made by the Legislature, without leaving it to the mercies of public charity. A tax has been suggested, but this is not so advisable a mode as a direct appropriation from the treasury to support what is now an absolute necessity as much as is the police or the judiciary.

The uncourteous attack of the government organ last week on the American Missionaries because as much was not contributed by their churches throughout the islands as the editor of that paper thought ought to have been, is not calculated to enlist sympathy. Such attacks tend to alienate rather than draw out cooperation; and after what has been said by the government organ, which assumes to set itself up as an exponent of what charity is, it is questionable whether any appeal to any class for this object -worthy as all admit it to be-will now meet a

The suggestion of the Treasurer regarding HIS MAJESTY has appointed Mr. DAVID KALAlegacies is a very appropriate one. No one will so readily give of his estate to cancel past obligations, as he will to create a fund to remain as a perpetual memento of his aloha, which, like the early and later rain on the fields, may, annually yield its blessings to the sick and needy.

Treasurer's Report. Second Biennial Report of the Treasurer of the "Queen's Hospital," to the Corporators and

Honolulu, June 20th, 1863. As required by the first article of the Charter of the Queen's Hospital, the Treasurer respectfully presents the following report, showing the amount and sources of the receipts and the amount and character of the expenditures during the two years ending with this date; and also the gross receipts and disbursements from the establishment of the Institution to the

RECEIPTS DURING THE LAST TWO YEARS 

do estate of the late R. W. Holt, (legacy),.... 500 00 do paying patients, from Consuls, Strangers'
Friend Society, etc., etc., 1425 83.
Rec. from Hawasian Treasury, for passenger and Hawasian seamer's taxes, and various appropriations, including \$1202 on account of the appropriation made by His Majesty, in Cabinet Council, April 22, 1863, to pay the debts and relieve the necessities of the Hospital...... 10,574 98

\$13,743 93

DISBURSEMENTS DURING THE LAST TWO YEARS. Paid wages of Purveyor and servants up to 1st inst. . \$ 3104 50 do Physician's salary up to 15th April, ..... do for improvements and repairs on the premises,. do provisions, medicines, furniture, coffins, fuel, lights, stationery, &c , &c .....

TOTAL RECEIPTS. From subscribers and contributors, ..... \$14,028 96 do paying patients,..... 2,645 32

TOTAL DISBURSEMENTS. Paid rent for temporary Hospital ..... \$ 518 00 buildings, and other improvements

do for provisions, medicine, furniture, fuel, lights, coffins, statiodery, &c., &c... 12.980 60 43.065 67

The foregoing are all cash items. During the last two years there have been liberal contributions of beef from Messrs. Allen & Berrill, Cornwell & Vida, the Waimea Grazing and Agricultural Company, Mr. R. Moffit and Mr. R. B. Armstrong; and during the previous two years you will recollect that medicines. beef and other articles, valued at \$700, were given to the Hospital.

It seems to me desirable that bequests to the Hospital should not be consumed in payment of the current expenses; but that such gifts should be funded, and only the interest or income from the fund used for payment of ordinary expenses. CHAS. R. BISHOP, Treasurer.

#### NOTES OF THE WEEK.

THE VOLCANO IN ACTION !- Passengers and letters from Hilo state that the crater has become very active. and promises some new pyrotechnic displays on or about the "4th of July." A letter from Capt. Worth, dated last Saturday, says:

" Visitors just returned from the volcano of Kilauea, report that a large part of the old crater is in such an active state, that it is impossible to descend into it. The accounts say that from the north part, near the entrance across the path leading to what is usually termed the lake, and extending throughout the whole southeastern part, is in an active state. The prospect from the house on the bank is said to be grand, as from this point jets of lava can be seen heaving up from many different places. From this neighborhood (Hile) for the last week, the light has been seen by different persons, and passengers by the steamer report seeing unusually heavy bodies of smoke hanging over the mountain.'

From what we can learn from Mr. J. C. King, who has visited Kilauea since the new eruption, it broke out on the floor of the crater along the " black ledge," below the sulphur bank. The new lava stream runs thence north-easterly, crossing the path, and then goes on around to the vicinity of the sulpher banks located on the opposite side of the crater from the summit house. Some idea of the new cruption may be gathered from the fact that it is difficult to remain on the high bluff above the "black ledge" on account of the great heat and smoke. The top of this bluff (the west bank) is given by Wilkes as 784 feet above the floor of the crater, where the eruption is. At night, fires are seen all over the bed of the crater, but most prominent along the new

Installation - On Sunday last at 3 P. M., Rev. Henry H. Parker was ordained and installed as pastor of the Kawaiahao Church in this city. The body of the house on the occasion, was crowded to excess, but the galleries were not so full. We noticed a large number of foreign ladies and gentlemen present. Besides the usual singing, which was remarked as excellent, the exercises consisted of: A charge to the people by Rev. B. W. Parker.

Ordination and consecration of the Pastor. Charge to the Pastor, by Rev. W. P. Alexander. Right hand of Fellowship, by Rev. M. Kuaca. Remarks to the Congregation by Rev. E W. Clarc.

Mr. Parker enters on his labors with the cordial welcome and support of the people, among whom he has during the year past been stationed as an assistant. His perfect acquisition of the native language, and the rare faculty he possesses of renderng foreign ideas and sentiments clear, attractive and intelligible to the native mind, has made him a popular speaker with them, and we hope he may prove equally useful as a pastor. Foreigners, who wish to hear the native language spoken as the natives use and speak it among themselves, will be repaid by listening to Mr. P.'s sermons and ad-4TH OF JULY .- This anniversary promises to be

observed here with the usual demonstrations. Great preparations are being made for festivities in various directions. Among them, we hear that a luau comes off at Maunalua, given by J. I. Dowsett, Esq., to the mechanics of Honolulu; another at Waikiki, and other festive gatherings are talked of. An oration will be delivered by Rev. E. Corwin at 10 A.M. at the Fort Street Church, on which occasion national odes will be sung. At 1 o'clock P. M., there will be a general picnic on the grounds of the Oahu College, which, we understand, will be open to all.

- His Excellency Mr. M'Bride, the American Minister, will receive the congratulations of his countrymen and others at the residence of A. D. Cartwright, Esq., opposite the Fort Street Church, from 12 till 2 P. M., and during the evening.

"Sound on the Goose."-A hard-working mechanic, when asked a day or two since if he would work on "the fourth," answered "No, if I never receive another dollar for my labor." That's the grit that won American Independence, and if the American Government had such men to conduct the war with the rebels, Richmond or Charleston would not now be in their possession, and Jeff. Davis and his confederates would long ago have been strung "higher than Haman."

FOR THE EAST .- The Comet will sail on Monday next for San Francisco, and takes a fair list of passengers, among whom are Dr. Anderson and family, Col. T. J. Dryer and wife. The bark will have her cargo all in by to-night, but having promised to wait till Monday, wlil do so.

FINED.-From Lahaina, we learn that two parties have been convicted of selling intoxicating liquors there without a license, and fined \$150 each.

### LOST:

A Large CAMEO BREAST-PIN. on the Valley Road, between the first bridge and Judd A suitable reward will be paid the finder on leaving it a LEWERS & DICKSON'S.

### EX "COMET!" BRLS. AND TRCS. FRESH SALMON,

Proposals for Exchange!

#### THOMAS KEECAN, MASON!

King St., near Castle & Cooke's Store. HAS CONSTANTLY ON HAND AND FOR

sale California and Hawaiian Lime, Cement, Plaster Bricks, and several other articles in the building line R sofs covered with Slates or Composition and warranted water Orders from the other islands thankfully received. 371-3m

Sugar Pans .- On Saturday last Mr. Hughes cast another of the improved sugar pans, of which this is the third and largest he has cast. It measures seven feet by nine in size, is three quarters of an inch in thickness, and will weigh about 3,500 lbs. when finished. It is of the same pattern as those used on the Princeville estate, which have given the most entire satisfaction, and are considered superior to any other kind in use at the islands. The fact that sugar pans of the largest size and of the most improved pattern can be cast here having been demonstrated, we trust that in future they as well as steam engines required on our plantations, will be manufactured here in preference to importing.

THE PELE.-This little tug, which has become an indispensable help and reliance in our port arrangements, has been taken up on to the government slip to receive repairs and a general overhauling. An examination of her timbers and machinery shows her to be perfectly sound, and entitled to class as A 1 for years to come. She will be launched on Friday or Monday.

The steamer will leave for Hilo this P. M. Parties who wish to visit the volcano can not find a more opportune occasion than the present, when it is in an unusually active state, various portions of the great crater bed (which for half a century or more has been quiet) being now in action.

Home-made Bacon .- At the City Market they have a smoke-house, and produce some fine looking bacon, said (by those who have eaten it with greens) to surpass any of the imported.

We understand that on Friday evening, 3d inst., a subscription ball will take place at the auction room of J. H. Cole, Esq.

#### THE UNDERSIGNED, EXECUTOR OF

the Estate of the late William Johnson, of Kainalio, Kona, Hawaii, requests all persons having claims against said Estate thirty days. Honolulu, July 1st, 1863.

PRICE 25 CENTS EACH. At H. DIMOND & SON'S.

### Sugar Plantation!

THE UNDERSIGNED HAS 600 ACRES of land situated at Hana, East Maui, 4 miles from the Hana Harber, to which there is a good hard road. On the above land there are over 200 acres which can be plowed. There is plenty of word on the land for boiling, &c.; 50 acres are cleared and ready for the plow, and could be planted with cane at a small expense. There is on the land a frame house, stock yard 6 rods by 5, a hog pen about ½ acre in size, and a garden about an acre fenced in with stone. And owned by the undersigned there are 4 yoke of oxen, ox-cart, plows, &c., &c There are adjoining the land two or three hundred acres of Government land, (manks.) nearly the whole of which could be plowed. Cane in this district tassels, and must be ground off every year, which makes 100 acres here, equal to 150 acres in Makawao and other places.

This is a good opportunity for any person wishing to engage in the cane business. The undersigned will sell out entirely or will go into partnership.

371-3m

A CARD! THE OFFICERS AND MEMBERS of the scribed as contributing members of this Company, and would say that if there are any property holders or others, who wish to contribute, our Treasurer, Mr. George Clark, will always be found ready to receive their names and the amounts of their subscription. LAHAINA, June 29, 1863 EDITOR COMMERCIAL :- Your notice in last week's paper of a "Deserted Village," reminds me of an extraordinary exodus which took place from our little town a day or two since, when the Collector, Coroner, Governor of the Jail, Harbor Master and Sheriff of Maui, with the Treasurer of the Labaina Sugar Company, all left for Waikapu, and the whole party mounted on one horse. Much to cur surprise the horse has returned, so that the services of the Coroner were not required. The Treasurer of the Sugar Company has also returned, but is much exhausted, and was confined to his room all day yesterday. There are reports of his having been

hurt by a donkey last week. Yours, SUGAR CANE. P. S .- I have just ascertained that the balance of the party have just returned, all safe.

LEGAL NOTICE!-The Undersigned baring resigned his position as one of the Circuit Judges for liveal, hereby offers his services to the public. From his knowedge of the native language, he confidently trusts that he can give satisfaction in translating and interpreting, and in the drafting of any legal document in the Hawaiian language. For the present, he may be found at the office of Judge Davis, Police Magistrate
